Your submission:	<p>The Trust:</p> <ol style="list-style-type: none"> 1. Supports the ban on non-self contained freedom camping on Banks Peninsula 2. Requests further controls on self-contained vehicles on Banks Peninsula, including the rural areas. These controls should include a limit on the number of days they can stay at any one location (2), and a limit on the total number of vehicles in any one location (2), except in areas nominated as self contained freedom camping areas. This is to prevent clustering of vans in areas affecting amenity, views, or rural properties. 3. In determining whether areas are suitable for freedom camping, the Council should use the District Plan as a guide and recognise the visual intrusion of campervans, particularly the much larger self-contained vehicles, in areas of high sensitivity such as the Coastal zone. The ban on freedom camping for all vehicle types should extend across the entire Historic Area in Akaroa for this reason. Large vans obstruct the views of the buildings and are not compatible with the narrow streets and historic character
